# How CHIP Works

## Collecting Data

CHIP's solutions start with you. You have complete control over how CHIP works and what CHIP does. We do not collect any information on users other than optionally signing up with your email to receive update notifications.

## Simplifying Workflows

By integrating our AI capabilities into your existing systems and processes, we can optimize tasks, streamline operations, and boost efficiency.

# Company Insights

You may find that our Starter Plan and Professional Plan are priced identically. This is intentional. Our mission is driven by the principle of availability. We believe that to foster widespread use, our product must be financially accessible to everyone. Hence, our prices remain low while our performance excels.

At CHIP-AI, we abide by three core principles:

1. **Constant Innovation:** We continually enhance our product to meet the evolving needs of our users.
2. **Fair and Universal Accessibility:** CHIP must be equitable and available to everyone, ensuring that cost is never a barrier.
3. **Privacy Respect:** We prioritize your privacy with no unnecessary data collection. CHIP operates independently on your device, collecting only the essential information needed to verify your identity and ensure secure transactions.

In essence, we do not collect any of your personal data. CHIP functions entirely on your device, maintaining your privacy while delivering top-tier performance. The only requirement is an account with our company to confirm that you are a genuine user. At CHIP-AI, we are committed to creating an inclusive, innovative, and secure experience for all.
